

# COLORS ON DEMAND VALUE

KEBE until today offers a rich variety of colors, in all types of tiles (*Dutch-Portuguese-Mediterranean & Macedonian*) and roof accessories. But the research and development department of new products (*R&D*) which has a significant role in the strategic growth of KEBE never stops!

The Colors On Demand **Value** is a new benefit for KEBE's partners. You can collaborate with the R&D and the Sales department and produce the color of your preference, without any limitation in style and colors, satisfying even the most demanding aesthetic approach.

**Imagine more? Just name it and we will produce it for you.**
